FOURTH CHAPTERECONOMIC SITUATION

25X1

SECRET [REDACTED]

Agriculture

25X1

The farming production of the village of SHALAR(CK-0664) consists of wheat, corn and barley. [REDACTED] the production of the village is sufficient for 3 months only. Owing to the insufficient area of the cultivated fields owned ~~by~~ by the village and the infertile nature of these lands, the village rs have not created a farming cooperative. A government proposal made to the inhabitants of this village to remove to the area of Vrone and Fier, has been rejected by the peasants. The inhabitants of DHEMBLAN refused to join the cooperative too. Government proposals for the creation of cooperatives were confronted with the refusal of the inhabitants of MATOHASANAJ(DK-0168) and DOREZE(DK-0072). The peasants of these villages justified their reluctance for collectivization with excuse that their fields were not enough and in addition to that, they are infertile too.

25X1

[REDACTED] the inhabitants of these villages depend on stock-farming.
